George Campbell Jr., Ph. D

A Letter from President Campbell

Congratulations to members of the graduating class of 2007 on earning your degrees from The Cooper Union for the Advancement of Science and Art, one of the nation's most distinguished institutions of higher education. I extend to you my best wishes for continued success as you take the knowledge gained during your time at Cooper Union into the professions for which you have so diligently prepared.

During your years here, our society has been grappling with historic challenges, recast in 21st century incarnations – issues of safety and security, war and peace, the scarcity of resources and sustainability – issues that threaten our economy, our democracy and the future of civilization. At the same time, startling advances in science and technology and new modes of creative expression, with considerable impact on your chosen professions, define unprecedented opportunities for innovative solutions. This inherently dynamic nature of the world order inspired the tradition of bringing leading thinkers to the Great Hall, a tradition that, in times past, attracted Abraham Lincoln, Harriet Beecher Stowe, Bertrand Russell and Eleanor Roosevelt; a tradition that, enriching the academic discourse, brought you such figures as Salmon Rushdie, Susan Sontag, John Kerry, Benoit Mandelbrot Wangari Maathi, Mario Cuomo, and Newt Gingrich.

The gift of a Cooper Union education comes with the expectation that you will make the most of the experiences you've shared both inside and outside of your classrooms, studios and laboratories; that you will apply your formidable talents to make a measurable difference in the world; and that you will join with your fellow alumni in perpetuating the extraordinary legacy of Peter Cooper.

George Campbell Jr., Ph.D

President
